She is also head of the Government of Flanders Executive Office, Department for the General Government Policy. In the area of the digital government, Brigitte Mouligneau is Vice President of the Geographic Data Infrastructure Steering Group of Flanders and member of the Coordination Committee for the Flemish Service Integrator on E-government.

Nadja KABISCH

**Institute of Geography, Department Landscape Ecology
Humboldt-Universität
Germany**

Nadja Kabisch is a researcher and lecturer at the Humboldt University in Berlin, Department of Landscape Ecology. She is involved in the EU-research projects URBES and GREEN SURGE focusing on quality of life analysis of urban green spaces across European cities and respective governance challenges.

Ulrika K. STIGSDOTTER

**University of Copenhagen
Denmark**

Ulrika K. Stigsdotter is Professor of Landscape Architecture at the University of Copenhagen with special responsibilities in Health Design. She guides innovative research within a wide range of current research trends on interactions between man, human health and the natural environment, with a foundation in Evidence-Based Health Design. Ulrika Stigsdotter is also active as project leader and responsible landscape architect for the Nature, Health & Design Laboratory, located in the Hoersholm Arboretum.

Ania ROK

**ICLEI – Local Governments for Sustainability
Germany**

Ania Rok is a Governance & Social Innovation Coordinator at ICLEI – Local Governments for Sustainability European Secretariat, based in Freiburg (Germany). Sociologist and local governance expert, she is currently responsible for knowledge brokerage and social learning activities within the ARTS project.

Paris SANSOGLOU

**European Dredging Association (EuDA)
Belgium**

Paris Sansoglou is Secretary General of the European Dredging Association (EuDA). His professional experience includes research on sustainable development, statistics (Business Statistics), knowledge management, economic, environmental & financial consulting activities at Ernst & Young. He has spent most of his career in European-level institutions and trade associations. He also ran the secretariat of the European Technology Platform WATERBORNE from 2005 (inception) till 2009.

Luc BOURDEAU

**European Construction Technology Platform (ECTP)
Energy Efficient Buildings Association (E2BA)
Belgium**

Luc Bourdeau has been Secretary-General of the European Construction Technology Platform (ECTP) and of Energy Efficient Buildings Association (E2BA) since their inception in 2004 and 2009. He is Director of the French Scientific and Technical Centre for Buildings (CSTB) and President of the European Network of Building Research Institutes (ENBRI). He is also Member of the Steering Committee of the Joint Programme on Smart Cities launched by the European Energy Research Alliance (EERA).

Nikolaos NIKOLAIDIS

**Technical University of Crete
Greece**

Nikolaos Nikolaidis is Deputy Rector of Finance, Planning & Development at the Technical University of Crete, and Professor at the School of Environmental Engineering. His areas of expertise include: Sustainable soil and land management, integrated water resources management, site Assessment and restoration, and sustainable development. He has published extensively and he has participated in many research projects funded by the EU, US and Greek funding agencies.

Ricardo GARCÍA-MIRA

**University of A Coruña
Spain**

Ricardo García Mira is Professor of Social and Environmental Psychology at the University of A Coruña. He is also Coordinator of the People-Environment Research Group, President of the International Association for People-Environment Studies (IAPS) and Editor of the Journal of Architectural and Planning Research.

Ophélie DURAND

**AGE Platform Europe
Belgium**

Ophélie Durand works at AGE Platform Europe as European Parliament Liaison Officer. AGE PLATFORM is the European largest network of organisations of and for older persons. She is responsible for the communication activities in the AFE-INNOVNET Thematic network on innovation for age-friendly environments.

Giampaolo NUVOLATI

**University of Milan Bicocca
Italy**

Giampaolo Nuvolati is Professor at the University of Milan Bicocca where he teaches Urban Sociology. He has coordinated several European research projects oriented to define and to measure living conditions in urban contexts. His main research fields concern: spatial and temporal mobility of urban populations, services accessibility and well-being in local communities.

Denia KOLOKOTSA

**European Cool Roofs Council and Technical University of Crete
Greece**

Denia Kolokotsa is the President of the European Cool Roofs Council and Professor at the School of Environmental Engineering of Technical University of Crete. She is member of the Renewable Energy and Advances in Building Energy Research Editorial Board and Guest Editor of the International Journal of Low Carbon Technologies and Sustainable Cities and Society Journal.

Scira MENONI

**Politecnico di Milano
Italy**

Scira Menoni is Professor at the Department of Architecture and Urban Studies at the Politecnico di Milano, focusing on technological and natural risks prevention. She is working closely with local administrations and in particular with Umbria region on disaster risk reduction activities. In addition, Scira Menoni is coordinating a Coordination Action, Know-4-drr "Enabling knowledge for disaster risk reduction in integration to climate change adaptation".

Adriana GALDERISI

**University Federico II of Naples
Italy**

Adriana Galderisi is Professor of Urban Planning, Department of Civil, Architectural and Environmental Engineering at the University Federico II of Naples. She has coordinated research activities within numerous National and European Research Projects focusing on vulnerability and resilience of urban systems to natural disasters. Moreover, Adriana Galderisi is responsible for the Training Project of the National Project "Smart Energy Master for the energy management of the territory".

Jürgen FRICK

**University of Stuttgart
Germany**

Jürgen Frick is Head of the Unit Inspection and Quality Control of Structures at the Materials Testing Institute, University of Stuttgart. He is currently working on cost-effective tools for better indoor environment in retrofitted energy efficient buildings. Jürgen Frick is also the Chair of the cluster for Indoor Environment Quality (IEQ).

Michele PENZA

**Italian National Agency for New Technologies, Energy and Sustainable Economic Development (ENEA)
Italy**

Michele Penza joined ENEA in 2001, where he manages research projects (regional, national, international) and teams in the Technical Unit for Materials Technologies at Brindisi Research Centre. He is Chair of the COST Action EuNetAir - European Network on New Sensing Technologies for Air-Pollution Control and Environmental Sustainability (2012-16).

Mart GRISEL

**European Urban Knowledge Network (EUKN)
The Netherlands**

Mart Grisel is Director of the European Urban Knowledge Network (EUKN) and Programme Manager of Platform31, the knowledge organization for cities and the regions. He is actively involved in European, international and national programmes on collaborative urban governance.

Elena MOZGOVAYA

**The Next Network - Nexthamburg
Germany**

Elena Mozgovaya works at The Next Network, where she focuses on participatory urban development and urban co-creation. Her area of expertise is in Urban Development and Strategic Management, in particular looking at Germany, France, Sweden and Russia. She is also active in a network of international NGOs for sustainable development.

Lucia SCOPELLITI

**Smart City Office, Department of Employment,
Economic Development and University, Municipality of Milano
Italy**

Lucia Scopelliti is currently responsible for the Smart City Office in the Municipality of Milano. She has solid experience in social policy and social innovation, and has previously worked at OECD, Paris, and at FAO, Rome.

Jesper STEENBERG

**City of Copenhagen
Denmark**

Jesper Steenberg is Head of Innovation at the Environmental School Service, City of Copenhagen. The Environmental School Service is a unique model for involving and educating children and youth in the city's green development. The model entails cross administrative cooperation, a public-private partnership with partners from small NGO's to large utility and infrastructure companies and is based on the UN concept Education for Sustainable Development.

Stefano MARRONE

**Nucco Brain & Book on a Tree
Italy/The United Kingdom**

Stefano Marrone started working in the field of educational digital products, leading a team of designers and animators for the visual development of various apps and stories for the children market. Currently he's the managing director of an animation and visual storytelling studio -Nucco Brain- in London, working in the visual development and animation field, together with mentoring start-ups about their branding and marketing strategy. Moreover, Stefano Marrone works closely with the writers and storytellers of Book on a Tree, led by Pierdomenico Baccalario, to create the visual side of outstanding IPs for broadcast, digital distribution and publishing.

Cecil KONIJNENDIJK VAN DEN BOSCH

**University of Copenhagen
Denmark**

Cecil Konijnendijk van den Bosch is Professor of Green Space Management at the University of Copenhagen and he is also Head of the Landscape Department at the Swedish University of Agricultural Sciences. In addition, he is President of Arboricultural Research and Education Academy, editor-in-chief of the journal *Urban Forestry & Urban Greening*. His research interests relate to green infrastructure, urban forestry, green space governance and cultural ecosystem services of green space.

Fabio SGARAGLI

**Fondazione Giacomo Brodolini
Italy**

Fabio Sgaragli leads the Social Innovation Unit at Fondazione Giacomo Brodolini, a European think-and-do-tank on labour and economic development issues with offices in Rome, Milan, Brussels, Bucharest and Barcelona. In this capacity, Fabio Sgaragli manages FabriQ, the first Incubator of Social Innovation of the Municipality of Milan. Prior to this, he has also been founder and manager of the PricewaterhouseCoopers global Strategic Unit on Corporate Social Responsibility and Sustainability.
